Proposal for a

COUNCIL DECISION

on the signing, on behalf of the Union, and provisional application of the Protocol on the implementation of the Fisheries Partnership Agreement between the European Community and the Republic of Cape Verde (2019-2024)

EXPLANATORY MEMORANDUM

1. CONTEXT OF THE PROPOSAL

• Reasons for and objectives of the proposal

The Fisheries Partnership Agreement between the European Community and the Republic of Cape Verde¹ (hereinafter ‘the Agreement’) entered into force on 30 March 2007². The current Protocol to the Agreement entered into force on 23 December 2014 and will expire on 22 December 2018.

On the basis of the relevant negotiating directives³, the Commission conducted negotiations with the Government of the Republic of Cape Verde (hereinafter ‘Cabo Verde’) with a view to concluding a new Protocol to the Agreement. Following these negotiations, a new Protocol was initialled on 12 October 2018. The Protocol covers a period of five years from the date of its provisional application, i.e. from the date on which it is signed, as stated in Article 15 thereof.

• Consistency with existing policy provisions in the policy area

In accordance with the priorities of the Fisheries Policy reform⁴, the new Protocol provides fishing opportunities for Union vessels in Cabo Verde waters, on the basis of the best available scientific advice and following the recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT). This new Protocol takes into account the results of an evaluation of the previous Protocol (2014-2018) and of a forward-looking assessment of whether a new Protocol should be concluded. Both were carried out by external experts. The Protocol will also enable the European Union and the Republic of Cabo Verde to work more closely on promoting sound exploitation of fisheries resources in Cabo Verde waters and support efforts by Cabo Verde to develop its blue economy, in the interests of both parties.

The Protocol provides for fishing opportunities in the following categories:

28 freezer tuna seiners,

27 surface longliners,

14 pole-and-line tuna vessels.

• Consistency with other Union policies

The negotiation of a new protocol to the Fisheries Partnership Agreement with Cabo Verde forms part of the Union’s external action in relation to ACP countries and takes into account, in particular, Union objectives on respecting democratic principles and human rights.

¹ OJ L 414, 30.12.2006, p. 3.

² OJ L 107, 25.4.2007, p. 7.

³ Adopted at the Justice and Home Affairs Council on 4-5 June 2018.

⁴ OJ L 354, 28.12.2013, p. 22.

2. LEGAL BASIS, SUBSIDIARITY AND PROPORTIONALITY

- **Legal basis**

The legal basis chosen is the Treaty on the Functioning of the European Union, Article 43(2) of which establishes the Common Fisheries Policy and Article 218(5) the relevant stage of the procedure for the negotiation and conclusion of agreements between the Union and third countries.

- **Subsidiarity (for non-exclusive competence)**

The proposal falls under the exclusive competence of the European Union.

- **Proportionality**

The proposal is proportionate to the objective of establishing a legal, environmental, economic and social governance framework for fishing activities carried out by Union vessels in third country waters, as set out in Article 31 of the Regulation establishing the Common Fisheries Policy. It complies with those provisions as well as with those on financial assistance to third countries laid down in Article 32 of that Regulation.

3. RESULTS OF EX-POST EVALUATIONS, STAKEHOLDER CONSULTATIONS AND IMPACT ASSESSMENTS

- **Ex-post evaluations/fitness checks of existing legislation**

In 2018, the Commission carried out an ex-post evaluation of the current Protocol to the Fisheries Partnership Agreement with Cabo Verde, along with an ex-ante evaluation of a possible renewal of the Protocol. The conclusions of the evaluation are presented in a separate working document⁵.

The evaluation report concluded that the EU tuna fishing sector has a strong interest in fishing in Cabo Verde and that a renewal of the Protocol would help strengthen monitoring, control and surveillance and contribute to improved governance of the fisheries in the region. The importance of Mindelo (island of São Vicente) as one of the main landing ports and processing sites in West Africa contributes to the relevance of the envisaged new Protocol, both for the EU tuna fishing sector and for the partner country.

- **Consultation of interested parties**

The Member States, industry representatives and international civil society organisations, as well as Cabo Verde's fisheries administration and civil society representatives, were consulted as part of the evaluation. Consultations also took place in the framework of the Long Distance Advisory Council.

- **Collection and use of expertise**

The Commission used an independent consultant for the ex-post and ex-ante evaluations, in accordance with the provisions of Article 31(10) of the Regulation establishing the Common Fisheries Policy.

4. BUDGETARY IMPLICATIONS

The annual financial contribution from the European Union is EUR 750 000, based on:

⁵ SWD(2018) 194 final, 16.5.2018

a) a reference tonnage of 8 000 tonnes per year, for which an amount linked to access has been set at EUR 400 000 per year for the entire duration of the Protocol.

b) support for the development of the sectoral fisheries policy and the blue economy of Cabo Verde for an amount of EUR 350 000 per year for the entire duration of the Protocol. This support meets the objectives of Cabo Verde's national policy on the sustainable management of its continental and maritime fishery resources for the entire duration of the Protocol.

The annual amount for commitment and payment appropriations is established during the annual budgetary procedure, including for the reserve line for protocols not having entered into force at the beginning of the year⁶.

5. OTHER ELEMENTS

- **Implementation plans and monitoring, evaluation and reporting arrangements**

The monitoring arrangements are provided for in the Protocol.

⁶ In accordance with the Interinstitutional Agreement on cooperation in budgetary matters (2013/C 373/01)

Proposal for a

COUNCIL DECISION

on the signing, on behalf of the Union, and provisional application of the Protocol on the implementation of the Fisheries Partnership Agreement between the European Community and the Republic of Cape Verde (2019-2024)

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 43(2) in conjunction with Article 218(5) thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) On 19 December 2006, the Council adopted Regulation (EC) No 2027/2006¹ on the conclusion of the Fisheries Partnership Agreement between the European Community and the Republic of Cape Verde (hereinafter ‘the Agreement’)², which entered into force on 30 March 2007, was tacitly renewed later, and which remains in force.
- (2) The previous Protocol to this Agreement will expire on 22 December 2018.
- (3) The Commission has negotiated on behalf of the European Union a new Protocol implementing the Agreement (hereinafter ‘the Protocol’). The Protocol was initialled at the end of those negotiations on 12 October 2018.
- (4) The objective of the Protocol is to enable the European Union and the Republic of Cabo Verde to work more closely on promoting a sustainable fisheries policy, sound exploitation of fisheries resources in Cabo Verde waters, and efforts by Cabo Verde to develop a blue economy.
- (5) Therefore signature of the Protocol should be authorised, subject to its conclusion at a later date.
- (6) In order to ensure an expeditious start to fishing activities of Union vessels, the Protocol should be applied provisionally upon its signature, pending its entry into force,

HAS ADOPTED THIS DECISION:

Article 1

The Union authorises the signature of the Protocol implementing the Fisheries Partnership Agreement between the European Community and the Republic of Cape Verde (2019-2024) (hereinafter ‘the Protocol’), subject to the conclusion of the said Protocol.

The text of the Protocol is attached to this Decision.

¹ Council Regulation (EC) No 2027/2006 of 19 December 2006 on the conclusion of the Fisheries partnership agreement between the European Community and the Republic of Cape Verde (OJ L 414, 30.12.2006, p. 1).

² OJ L 414, 30.12.2006, p. 3.

Article 2

The Council Secretariat General shall establish the instrument of full powers to sign the Protocol, subject to its conclusion, for the person(s) indicated by the negotiator of the Protocol.

Article 3

The Protocol shall be applied provisionally in accordance with Article 15 of the Protocol, as from the date of its signature, pending its entry into force.

Article 4

This Decision shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

LEGISLATIVE FINANCIAL STATEMENT

1. FRAMEWORK OF THE PROPOSAL/INITIATIVE

1.1. Title of the proposal/initiative

Proposal for a Council Decision on the signing, on behalf of the Union, and provisional application of the Protocol on the implementation of the Fisheries Partnership Agreement between the European Community and the Republic of Cape Verde

1.2. Policy area(s) concerned

11 – Maritime Affairs and Fisheries

11.03 – Compulsory contributions to regional fisheries management organisations (RFMOs) and other international organisations and sustainable fisheries agreements (SFAs).

11.03.01 – Establishing a governance framework for fishing activities carried out by Union fishing vessels in third country waters.

1.3. The proposal/initiative relates to:

X a new action

☐ **a new action following a pilot project/preparatory action⁹**

☐ **the extension of an existing action**

☐ **a merger or redirection of one or more actions towards another/a new action**

1.4. Objective(s)

1.4.1. General objective(s)

The negotiation and conclusion of Sustainable Fisheries Partnership Agreements (SFPAs) with third countries meet the general objective of giving EU fishing vessels access to the fishing zones of third countries and developing a partnership with those countries with a view to strengthening the sustainable exploitation of fishery resources outside EU waters.

SFPAs also ensure consistency between the principles governing the Common Fisheries Policy and the commitments made under other European policies (sustainable use of third-country resources, combating illegal, unreported and unregulated (IUU) fishing, integration of partner countries into the global economy and better political and financial governance of fisheries).

1.4.2. Specific objective(s)

Specific objective

To contribute to sustainable fishing in non-EU waters, maintain a European presence in distant-water fisheries and protect the interests of the European fisheries sector and consumers by negotiating and concluding SFPAs with coastal states, consistent with other European policies.

ABM/ABB activity(ies) concerned:

⁹ As referred to in Article 58(2)(a) or (b) of the Financial Regulation.

Maritime affairs and fisheries, to establish a governance framework for fishing activities carried out by European Union fishing vessels in third country waters (SFAs) (budget line 11.03.01).

1.4.3. *Expected result(s) and impact*

Specify the effects which the proposal/initiative should have on the beneficiaries/groups targeted.

The conclusion of the Protocol enables the establishment of a strategic fisheries partnership between the European Union and Cabo Verde. The conclusion of the Protocol will create fishing opportunities for Union vessels in Cabo Verde waters.

The Protocol will also contribute to better management and conservation of fishery resources, through financial support (sectoral support) for the implementation of programmes adopted at national level by the partner country, in particular as regards monitoring and combating illegal fishing, and support for the small-scale fisheries sector.

Finally, the Protocol will contribute to Cabo Verde's blue economy, promoting growth linked to maritime activity and the sustainable exploitation of its marine resources.

1.4.4. *Performance indicators*

Specify the indicators for monitoring progress and achievements.

Rates of utilisation of fishing opportunities (annual uptake of fishing authorisations as a percentage of availability under the Protocol).

Catch data (gathering and analysis) and the commercial value of the Agreement.

Contribution to employment and to added value in the EU and to stabilising the EU market (in aggregate with other SFPAs).

Contribution to improving research, surveillance and control of fishing activity by the partner country and the development of its fisheries sector, in particular its small-scale fisheries sector.

1.5. *Grounds for the proposal/initiative*

1.5.1. *Requirement(s) to be met in the short or long term including a detailed timeline for roll-out of the implementation of the initiative*

It is intended that the new Protocol will apply provisionally from the date of its signature so as to minimise any interruption of fishing operations which are ongoing under the current Protocol.

The new Protocol will provide a framework for the fishing activities of the Union fleet in the fishing zone of Cabo Verde and will authorise EU vessel owners to apply for fishing authorisations to fish in that zone. In addition, the new Protocol enhances cooperation between the EU and Cabo Verde, with a view to promoting the development of a sustainable fishing policy. It provides, in particular, for vessels to be monitored via VMS and for the electronic transmission of catch data. The sectoral support available under the Protocol will help Cabo Verde with its national fisheries strategy, including the fight against IUU fishing.

1.5.2. *Added value of Union involvement (it may result from different factors, e.g. coordination gains, legal certainty, greater effectiveness or complementarities). For the purposes of this point 'added value of Union involvement' is the value resulting*

from Union intervention which is additional to the value that would have been otherwise created by Member States alone.

If the EU does not agree a new Protocol, this would impede the fishing activity of EU vessels, as the Agreement contains a clause excluding fishing activities not taking place in the framework defined by a protocol to the Agreement. Consequently, the added value for the EU's long-distance fleet is very clear. The Protocol also offers a framework for enhanced cooperation between the EU and Cabo Verde.

1.5.3. *Lessons learned from similar experiences in the past*

An analysis of past catches in the Cabo Verde fishing zone and of recent catches within the framework of similar protocols in the region, as well as the assessments and scientific advice available, led the parties to set a reference tonnage for tuna and tuna-like species of 8 000 tonnes a year with fishing opportunities for 28 freezer tuna seiners, 27 surface longliners and 14 pole-and-line tuna vessels. Sectoral support has been set at a relatively high level in order to take into account needs in terms of building the capacity of Cabo Verde's fisheries authorities and the priorities of the national fisheries strategy, as well as plans for supporting the blue economy of this coastal State.

1.5.4. *Compatibility with the Multiannual Financial Framework and possible synergies with other appropriate instruments*

Funds provided as financial compensation for access under the FPA constitute fungible revenue in the national budget of Cabo Verde. However, funds intended for sectoral support are allocated (generally by introduction in the annual budget law) to the Ministry responsible for fisheries, as a condition for the conclusion and monitoring of FPAs. These financial resources are compatible with other sources of funding from other providers of international funding for carrying out projects and/or programmes at national level in the fisheries sector.

1.5.5. *Assessment of the different available financing options, including scope for redeployment*

1.6. **Duration and financial impact of the proposal/initiative**

☒ **limited duration**

- X In effect from 2019 to 2024
- X Financial impact from 2019 to 2024 for commitment appropriations and from 2019 to 2024 for payment appropriations.

☐ **unlimited duration**

- Implementation with a start-up period from YYYY to YYYY,
- followed by full-scale operation.

1.7. **Management mode(s) planned¹⁰**

☒ **Direct management** by the Commission

- X by its departments, including by its staff in the Union delegations;
- ☐ by the executive agencies

☐ **Shared management** with the Member States

☐ **Indirect management** by entrusting budget implementation tasks to:

Comments

2. MANAGEMENT MEASURES

2.1. Monitoring and reporting rules

Specify frequency and conditions.

The Commission (DG MARE, in collaboration with its fisheries attaché based in the region – Dakar, Senegal) will ensure regular monitoring of the implementation of the Protocol, as regards the use by operators of fishing opportunities and catch data and the respect of sectoral support conditionalities.

The FPA provides for at least one annual meeting of the Joint Committee, at which the Commission and Cabo Verde review the implementation of the Agreement and Protocol and, if necessary, adjust the programming and, if applicable, the financial contribution.

2.2. Management and control system(s)

2.2.1. *Justification of the management mode(s), the funding implementation mechanism(s), the payment modalities and the control strategy proposed*

The identified risk is the under-use of fishing opportunities by EU vessel owners and the under-use or delayed use by Cabo Verde of funds intended to finance the sectoral fisheries policy.

2.2.2. *Information concerning the risks identified and the internal control system(s) set up to mitigate them*

Extensive dialogue is planned on the programming and implementation of the sectoral policy laid down in the Agreement and the Protocol. Joint analysis of results, as referred to in Article 5 of the Protocol, also forms part of these control methods.

In addition, the Agreement and the Protocol contain specific clauses for their suspension, on certain conditions and in given circumstances.

- 2.2.3. *Estimation and justification of the cost-effectiveness of the controls (ratio of 'control costs ÷ value of the related funds managed'), and assessment of the expected levels of risk of error (at payment & at closure)*

--

2.3. Measures to prevent fraud and irregularities

Specify existing or envisaged prevention and protection measures, e.g. from the Anti-Fraud Strategy.

The Commission undertakes to establish a political dialogue and regular coordination with the Republic of Cabo Verde with a view to improving the management of the Agreement and the Protocol and strengthening the EU's contribution to the sustainable management of resources. Any payment which the Commission makes under an FPA is subject to the Commission's standard rules and budgetary and financial procedures. In particular, the bank accounts of the third countries into which the financial contribution is paid are fully identified. Article 4(6) of the Protocol lays down that the financial contribution for access is to be paid to Cabo Verde's Public Treasury and that the share intended for the development of the sector shall be paid into an account which is specifically for this purpose, opened with the bank of the Public Treasury of Cabo Verde.
